

In Situ Simulation for Resuscitation Outcomes: Train-the-Trainer

Thursday, 16 October 2025

08:30 - 13:00

FEE
AED 350

Enjoy complimentary
coffee break and lunch.

Target Audience

- Healthcare Leaders
- Resuscitation Team Leaders
- Clinical Service Heads
- Training Program Directors
- Healthcare Professionals interested in Simulation

Objectives

DURATION
4.5 HRS

- ✓ Explain the fundamentals of simulation-based training and their application in healthcare.
- ✓ Describe the principles, benefits, and limitations of in situ simulation.
- ✓ Establish and structure an in situ simulation-based mock code program in their institutions.
- ✓ Conduct effective pre-briefing, debriefing, and feedback sessions.
- ✓ Apply CRM, leadership, and teamwork principles during resuscitation-focused simulations.
- ✓ Define clear program objectives, measurable outcomes, and KPIs.
- ✓ Evaluate program effectiveness and identify strategies for sustainability.
- ✓ Act as trainers and facilitators, equipping them with the foundation to implement ToT within their own institutions.

All workshop participants will receive a Workshop Attendance Certificate with CME hours upon completion

Faculty

Workshop Lead

DR. TAREK HAZWANI

Pediatric Intensive Care Consultant
Associate Professor
Simulation Educator
Professional Trainer
King Saud bin Abdulaziz University
for Health Sciences
King Abdullah Specialized Children's Hospital
Riyadh, Saudi Arabia

MS. JOUD ABDULLAH ALARFAJ

Clinical Simulation Lecturer
Riyadh Clinical Simulation Center
King Saud bin Abdulaziz University for
Health Sciences (KSAU-HS)
Riyadh, Saudi Arabia

Exclusive access to interactive online materials and videos

Limited seats available! Register early to secure your spot
and avoid higher rates on the day of the conference.
