

Prof. Wael AlMahmeed

Research Grant is Back - 2026

منحة البروفيسور وائل المحميد
للبحث العلمي في مجال الإنعاش

Grant Amount: AED 75,000

Overview

Dr. Wael AlMahmeed's Annual Resuscitation Research Grant aims to support all healthcare professionals across all resuscitation-related fields in conducting high-quality research under the umbrella of the Arab Resuscitation Council. This grant is designed to encourage investigators in the Arab world by providing financial support for impactful research projects.

Recipients will conduct their research under the guidance of senior researchers, present their findings at the Arab Resuscitation Council Scientific Conference, and pursue publication in national and international journals.

Submission Requirements

Applicants must submit the following documents:

- 01 Curriculum Vitae**
A CV for both the applicant and their supervising researcher.
- 02 Full Research Proposal**
A comprehensive proposal outlining the research question, hypothesis, methodology, literature review, budget plan, and project timeline.
- 03 Clinical Impact Statement**
A brief statement on the potential impact of the research on patient care.
- 04 Institutional Letter of Support**
A letter from the institution where the principal investigator is conducting the research.
- 05 Recommendation Letters**
Two recommendation letters supporting the applicant's research capabilities and potential.
